Some Comparisons.

In the course of his able speech on the hot of the course of his able speech comparisons—drawn from the official returns in cach case—which are of much interest and importance. The Others Others states that he refuted the representation that the tariff had imposed heavy additional burthess on the Maritime Provinces, and especially upon New Brunswick, by showing from the trade returns that he perentage of duty on total imports of goods entered for consumption in that Province in 1877 was \$25.74, and in 1880, \$21.83. The rate of Costoms duties per head in New Brunswick was \$4.70 in 1874-75; \$0.71 in 1875-79, and \$3.05 in 1879-76, and in 1879-80. The rate of Costoms duties per head for the bountion was \$4.10 in 1877-67, and in 1879-80 it was \$3.83. Thus it will be seen that the rate for New Brunswick was 76c per capital last in 1879-80 than the average of the whole Dominion.
